CSG 11700AS - Full Height Turnstile

The CSG Turnstile range is a diverse dynamic range which is flexible and tailor made to provide you with the best solution to control pedestrian access.

Manufactured to the highest standards our heavy duty turnstiles are complete in all respects. Designed to give years of continuous use under the most arduous conditions.

In the event of a power failure all Turnstiles are fitted with a manual over-ride facility. A unique trap proof design prevents users becoming trapped in a 45 degree position.

The turnstiles may be operated by simple stand-alone access control readers through to complex time and attendance systems. They are an ideal solution in terms of security, all of the range can also be combined with a large range of access control.

FLOW RATE

F15 to 20 (depending on reader)

ELECTRICAL SUPPLY

Mains Supply: 230V 50Hz single phase rated @ 10 Amp

If required, please contact CSG for a bespoke solution.
