## JOB VACANCY: FIELD SERVICE & INSTALLATION ENGINEER

We are looking for a field service installation and maintenance engineer to join our team full time!

As part of our Field Service team, you'll be working mobile, carrying out the full installation of our perimeter security products. You'll also be attending existing sites (installations) to carry out maintenance operations such as routine checks, emergency call outs and repairs for clients to assist to aid them in the upkeep of their gates, barriers and road blockers. As well as our own products, we also look after other gate and barrier products by other manufacturers.

Working closely with our administration team, you'll visit new and existing clients mainly within London and South East, but also across the UK (occasional foreign travel is an option). We have sites across the world and depending on knowledge, ability and experience, there are travel opportunities.

Reporting directly to the Field Operations Manager we're seeking someone who is self-motivated, confident, have a true customer service approach to problem solving and who can complete all work to a high standard having completed Cova's in-house training.

Attention to detail is key as you'll need to keep accurate records of checks made, tasks undertaken and completing reporting following a client visit. You'll be responsible for keeping stock and managing the materials and parts kept in your vehicle, ensuring it's stocked up for everything you need ahead of the next job.

Due to the nature of the role the successful applicant will need a full clean driving license, a good level of fitness due to the demands of the job, good communication (written and verbally) and be able to pass security clearances.

### Benefits of working with us:

- Competitive Salary & Overtime Personal advancement opportunities
- 5 weeks paid annual holiday entitlement excluding public holidays
- All tools, including PPE equipment
- Life Insurance
- Secure on-site parking
- Company pension contribution
- Company Van & Uniform
- Mobile Phone/I-pad/laptop

### Experience:

- CSCS Card (Desirable)
- IPAF (Desirable)
- PASMA (Desirable)
- Electrical & mechanical experience.
