JOB VACANCY: FINAL ASSEMBLY FITTER

Come and join us!

Celebrating 33 years in the industry, Cova Security Gates are a leading designer, manufacturer and installer of high-quality perimeter security products based near Gatwick airport. We deliver a full turnkey solution and our products are designed to be functional, reliable and we pride ourselves on providing excellent customer service.

The Role

To ensure that the products and services supplied by Cova Security Gates Limited are produced to specification and in accordance with the requirements agreed by the client. The Final Assembly Fitter will receive specific drawings and a work instruction from our Design Department and will use these to assemble our products.

You'll check the drawing and works instruction for accuracy, quantities, drawing numbers etc and collate all material(s) required with your working area for the product(s) you are working on and liaising with the Buyer for any additional materials required or report any missing items.

You'll assemble the materials into a finished product ensuring that the aesthetics of the products are finished to a very high standard and quality. Cova are renowned in the industry for their quality manufactured, fitted and finished product range.

You'll see the product right through to final finish assembly and ensure that our gates, rising bollards and barriers operate correctly within the tolerances set. Once signed off by the Production Manager you'll be proactively involved in the Factory Acceptance Test and assist with packing up products ready for collection or delivery.

Our products are designed, manufactured and installed in some very high-profile locations and buildings all over the world. We're looking for someone with a proactive, can-do attitude, be conscientious with the finish and quality of their work with previous experience.

Benefits of working with us

- Competitive Salary
 - Personal Advancement Opportunities
 - 5 weeks paid annual holiday entitlement excluding public holidays
 - Free Secure Parking
 - Death in service benefit Company
 - Pension Contribution
 - Overtime when available
- This is a permanent position 8am-4.30pm.
